

NEW
C5 PRODUCT

Combination Masthead/All-Round Light C-5 Compliant

Designed for sail and power driven vessels under 20 m (65.6 Ft.)

Light Features:

- New High-Tech design with self contained LED modules.
- ABYC C-5 and ISO 19009 compliant.
- Black or White Polymer and 3/4" anodized aluminum tube
- Quality components designed for harsh marine environments.
- 225° Masthead: 3nm
- 360° All-Round Light: 2nm

Tech Specs:

- For 12 Volt systems
- Nominal Draw
- Masthead: 2.2 watts, .20 Amps
- All-Round Light: 1.28 watts, .10 Amps

Meets Global Specs for:

- ABYC C-5
- NMMA Type Accepted
- EN/ISO 19009:2015
- ABYC A-16 (2016)
- 1972 COLREGS
- RCD 2013/53/EU
- USCG 33 CFR - 2nm

Round Fixed Mount and Fold Down Pole Light Mounting Base Options

Either base configuration may be used when mounting on a flat surface depending on your selected mounting location. Use the adapters supplied when mounting on "V" type surfaces such as windshield frames or crossbars. **Note:** When mounting on "V" type surfaces such as windshields, the light must be tall enough so that it does not impede the night vision of the operator. Horizontal or vertical mounts refer to the folding direction of the pole relative to the attachment plane of the base mount and not the plane of the surface being mounted on.

Round Fixed Mount Base

For horizontal fixed mounting surfaces where folding the light is not necessary.

Horizontal Mount Bases

Folds down 90° in either direction **perpendicular** to the plane of attachment plate of the mount

Vertical Mount Bases

Folds down 90° in either direction **along** the plane of attachment plate of the mount
